SUMMARY

Dedicated Frontend Web Developer with a background in dentistry, and a strong passion to design and create user friendly software products. Empathetic and assertive team player with the ability to communicate clearly, and careful attention to detail. Undertaking a front-end development bootcamp to acquire the necessary skills to transition into the software industry, while bringing in a wealth of seasoned experience in customer care and problem-solving ability.

TECHNICAL SKILLS

Technical Languages and Skills : HTML5, CSS3, Bootstrap, JavaScript, React.js, Node.js, Git, GitHub, jQuery, ECMAScript, Test-Driven Development, Object Oriented Programming.

PROJECTS

A-Dentistry-Quiz-Game | GitHub | Website
- Developed an interactive web-based quiz application using JavaScript, incorporating dynamic HTML content manipulation and `setInterval` functions for a real-time countdown timer penalising incorrect answers.

- Implemented local storage for persistent tracking and display of high scores in descending order, enhancing user engagement and competitive experience.

The Pursuit of Hobbyness | GitHub | Website
- Co-developed and launched "The Pursuit of Hobbyness", a feature-rich web application, in collaboration with two peers. Led the JavaScript development, authored the project's README, and managed the GitHub repository.

- Integrated two server-side APIs for data retrieval, enhancing the app's functionality. Skillfully employed a tech stack including HTML5, CSS3, Bootstrap, JavaScript, and jQuery.

- Utilised Excalidraw and Figma for UI/UX design, embedding six instructional videos and implementing local storage, resulting in an intuitive and user-friendly experience.

Workday - Planner | GitHub | Website
- Engineered a daily planner application utilising dayjs() to display real-time updates, with dynamic time blocks that change based on the current time for efficient event tracking from 9am to 5pm.

- Enabled persistent event storage through page reloads, featuring a user-friendly interface with dedicated save buttons for each time block to ensure easy event management.

EXPERIENCE

Associate Dentist (2022-current), GK Ooi & Associates Dental Practice, London
Excelled in patient engagement and critical thinking, ensuring top-tier clinical care. Led initiatives to enhance communication and workflow, boosting productivity and optimising operations. Showcased adaptability and strong teamwork skills, essential for dynamic, fast-paced settings.

Key Achievements:

- Increased patient satisfaction through exceptional clinical service and dedication to ongoing professional development, significantly elevating the practice's market standing.

- Achieved 100% of performance targets ahead of deadlines while implementing efficient, real-time record-keeping and maintaining composure in high-stress situations, contributing to improvements in the patient care environment.

- Drove a 20% improvement in practice operations and patient experience by cultivating a team-oriented culture and enhancing collaboration with referral centres, demonstrating impactful leadership and process optimisation capabilities.

Associate Dentist (Aug 2017 - Dec 2020), GK Ooi & Associates Dental Practice, London
The first year was marked by an enriching mentorship program, which was instrumental in sharpening both clinical and interpersonal skills.

Key Accomplishments:

- Achieved a self-directed skill enhancement, leading to complete transition to operating as an independent clinician, noted for a 30% improvement in patient management efficiency and care precision.

- Engineered and deployed a cutting-edge record-keeping system, reducing administrative overhead by 50% and enhancing care pathways efficiency.

- Exhibited unparalleled adaptability and learning speed, adopting feedback to boost care quality, resulting in patient satisfaction across more than 15 patient interactions per working day, directly contributing to an improvement in overall health outcomes.

EDUCATION

Front End Web Development Bootcamp (Nov 2023 to Mar 2024): An intensive 16-week program focused on gaining technical programming skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Node.js, JSON, and ReactJS.

Bachelor of Dental Surgery (BDS), Sri Ramakrishna Dental College, India

Excel Essential Training (Microsoft 365), LinkedIn
